Hampshire Regional School District Web Publishing Consent Form

The Hampshire Regional School District's web site provides an opportunity for us to post publicly accessible information to the world about our school. General information such as calendars, news, special events, student activities and staff contact information is often published along with student work, including photographs, images, writings, videos, club activities, theater productions, etc.

As you are aware, there are potential dangers associated with the posting of personally identifiable information on the web because public access to the Internet does not allow us to control who may see such information. Personally identifiable information contains things like student names, photos, videos, residential addresses, email addresses, phone numbers, location and time of class trips, etc. Therefore, to safeguard our students we require a parent/guardian to sign a "Web Publishing Consent Form" each year. The form acknowledges your review of our web posting policies (outlined below) and indicates your level of consent.

Web Posting Policies (regarding student safeguards): When authorized (via a Web Publishing Consent Form) to post publicly accessible student related information on our web site, it is the policy of the Hampshire Regional School District to:

1. Only use a first name along side student writings or artwork.
2. Never include a name (first or last) along side student pictures (photo or video).
3. Never post last names or last name initials on our web site.
4. Never post residential addresses, email addresses or phone numbers.
5. Never post information covered under FERPA (**Family Educational Rights and Privacy Act**).
