

PROTOCOL AND GUIDELINES FOR MANAGEMENT OF LIFE-THREATENING FOOD
ALLERGIES IN THE HAMPSHIRE REGIONAL SCHOOL DISTRICT

PURPOSE AND GOAL

The goal of the Hampshire Regional School District is to engage in a system-wide effort to:

- Prevent any occurrence of life-threatening food based allergic reactions
- Prepare for any allergic reactions to food
- Respond appropriately to any food allergy emergencies that arise

The Hampshire Regional School District cannot guarantee the provision of a food allergen-free environment for all students with life-threatening allergies, or the prevention of any harm to students in emergencies. The goal is to minimize the risk of exposure to food allergens that pose a threat to those students, educate the community, and maintain and regularly update a system-wide protocol.
